Subject: Re: Smokey Mountain Smelters access

Thanks. Let me know what, if anything, I can do.

I reviewed e-mails from a period from March - October 2006. I was dealing with Region IV EPA attorney Greg Luetscher. I spoke to him again yesterday to refresh recollection. He is no longer the attorney for this site, and He referred me to another EPA attorney, Melissa Heath. I also spoke to her. I can give more information later, but EPA does need more access because the earlier arrangement applied only to non-intrusive sampling. We tried- but EPA did not want to use- a letter from Jim Haynes designating EPA under our state law for access - 68-212-216. srs
